My Practice

I work in oil, acrylic and mixed media. In my work I am drawn to explore the themes our relationship to the natural world, the personal or collective memory of place, deep history and folk memory. Much of my practice is concerned in evoking the experiences of sublime and timelessness of the landscapes , open seas and deep history through the representation of natural places and megalithic structures. Walking and exploring, then reading and discovering is the first part of my artistic process when explore a new subject.

I sell direct to the public from my studio which is ideally located in a location that attracts summer visitors. My paintings are in private collections in Australia, Switzerland, USA and Austria.

Additional information

I am a painter and musician. I perform with a well-established folk band, playing bass guitar and double bass and session on fiddle. I am a director of a community woodland; volunteering on the practical side and taking a role in conservation projects. I am interested in local heritage and tradition, and have written the book 'The revival of tradition: St Germans May Tree Fair' (2019, Golden Hare press) . I live on a boat with my husband and cat, which is an ongoing project.
